### Chloe's must-have tips for the fashion-forward canine.

Take it from a Chihuahua- you're never too small to make a big impression. Below, you'll find my must-have tips for channeling your inner fashionista and putting your best paw forward! And remember, beauty doesn't have to equal pain. Unless we're talking about Chewboutin heels. There are some things worth suffering for.

- 1 Ignore the scale. Unless it's measured in carats.
- 2 Don't toss old favorites. When you count one year as seven, it's not "last season," it's vintage.
- 3 Don't change your diet before a big fiesta. The goal is to light up a room, not to clear it.
- 4 Wear the cone. Don't let the cone wear you.
- 5 Drooling should be reserved for Bark Jacobs sales.
- 6 You should never wear black with brown. Unless you're a Rottweiler in which case, you go girl!
- 7 Trade clothes with your friends because one man's trash is another man's treasure. Unless it's actual trash, in which case GET YOUR HEAD OUT OF THAT CAN, PAPI!
- 8 If the shoe doesn't fit, try another paw. You've got four, Cinderella!
- 9 Never get caught wearing white in the fall or brown on your nose.
- 10 You want your face plastered all over town, just not on a lost ad. Microchipping is every season's must-have.
- 11 It's hip to dip! Fleas are NOT the new black.
- 12 Shaggy is chic, so go big or go home.
- 13 If you've got 'em, flaunt 'em! I'll stop embracing my wrinkles when pugs stop being so adorable.
- 14 Whoever thought a Pitbull in lipstick was a bad thing never met Pedro's mom.
- 15 Bangs are back, but keep those whisps out of your eyes. I'm looking at you Labradoodles.

It doesn't matter your age, breed, or kibble brand- follow these simple tips and you'll be feeling fashionably fabulous in no time! They might be a bit unconventional, but you don't become Beverly Hills' most fashionable Chihuahua by fitting in. To be outstanding, you have to stand out.
